

Job Description

GGYC Summer Camp 2022 Job Opportunities

Positions available: Over 20 Canada Summer Job Positions

About us:

GGYC is creating opportunities to help young Canadians build a stronger future and obtain the skills and experience they need to contribute to our collective economic growth.

At the Go Green Youth Centre, our mission is to relieve poverty and assist disadvantaged youth, particularly children of recent immigrants, to overcome social exclusion and isolation by establishing a multi-sport field and operating free multi-sport & enriched recreational programs for children of low-income families in Thorncliffe Park and Flemington Park (a Neighborhood Improvement Area) in Toronto.

We have built and operate an inclusive and welcoming environmentally sustainable multi-sport facility that stimulates youth to be active, healthy and engaged as well as skilled and responsible contributing leaders in their neighborhood.

We help newcomers and youth make new friends, build support networks, practice English, maintain good health, reduce stress, foster leadership opportunities, and develop employment skills through our youth-led programs.

We are focused on the four C's of Positive Youth Development: to foster within each participant to our programs feelings of self-confidence, skills competency, a strong character and the ability to form social connections with other people. Our youth leadership model also creates innovative leaders who teach others the importance of making community contributions for a stronger civil society.

Note: All staff are required to be fully vaccinated (minimum of two-doses) against COVID-19, as defined by Public Health Ontario.

Job Types: Full-time, Contract

Contract length: 8 weeks
